

Agent Safety

Agents and Appraisers are often working alone and away from the office. It's imperative to take safety seriously. Below are just a few suggestions to help remain safe.

01

New Clients

Meet new clients in the office or public space. Make a copy of their driver's license.

03

Lead from the Rear

Have clients enter areas first to avoid being trapped. Always stay between your clients and the door.

05

Assess

Take 10 seconds to assess your surroundings when you arrive. Plan an escape route.

07

Instincts

If you are uncomfortable, leave the situation. Trust your gut.

02

Stay Charged

Keep your cell phone charged and carry an extra charger in your vehicle.

04

Code Word

Establish a code word that signals you need help. Asking a colleague for a "red file" is often used.

06

Open Houses

Avoid personal distractions during open houses. If possible, do not hold an open house alone.

08

Share

Share your schedule details with someone.
