

HOW DO I FIND RESIDENTIAL MARKET TRENDS IN RPR?

RPR provides easy-to-understand market trends, charts, and graphs to help you set realistic expectations with for clients.

1 Once in RPR, click **Research** then select **Residential Market Trends**.

2 Enter a neighborhood, city, county or ZIP code.

3 Select the magnifying glass to search.

4 Find the **Market Trends Indicator** along with a variety of dynamic charts representing different statuses. Each chart features tabs showcasing essential metrics. Additionally, the **Months Supply of Inventory** is presented in a dedicated chart.

5 Select **Property Type** to change the table metrics which can be applied to only one chart or all charts.

6 Select the **Information Button** to see how the market types are defined as well as the **Sources** and **Update Frequency**.

7 Select **Print** to print the page of market charts. Select the **three dots** to the right to collapse a chart. Collapsed charts will not print. To show a specific tab from one of the charts, select the tab before choosing print.
