

TRANSITION TO RAPATTONI PREPARATION

As we prepare to transition back to Rapattoni, it becomes imperative to verify the information in Perchwell. Taking a moment to validate the details of your listings in Perchwell is not just a procedural step; it is a strategic measure for an effective reintegration into Rapattoni.

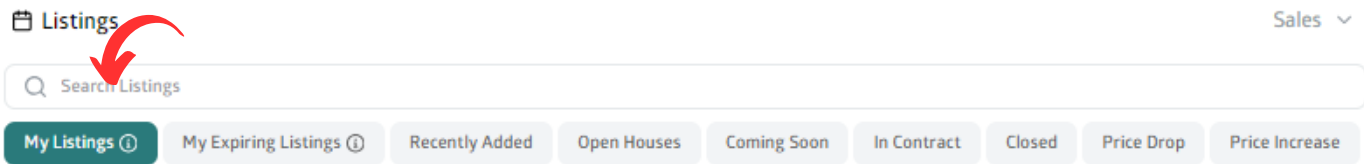

Log into your member portal, and choose the Perchwell button:

At the top, open your dashboard to view your listings.

Scroll to Listings and choose My Listings.

Verify that the following information for your listings is correct:

- Status: If the property has closed, be sure it has been updated with the correct information. We are currently not imposing fines for late changes to Closed.
- Price
- Expiration Date
- Core information (including bedrooms, bathrooms, total rooms, and dimensions of at least primary rooms)

We appreciate your efforts to make sure the information that will be sent to Rapattoni is correct.
