

COMMUNICATIONS FROM CINCYMLS

Update Your Preferences

Are you receiving important notifications from CincyMLS by text also?

Earlier in 2021, CincyMLS began delivering information to the membership more efficiently using NoteRouter. More importantly, members can choose the information they receive and the way they receive it.

Want reports of system outages immediately by text? Want Tuesday Tip Wrap Ups by email only? At the bottom of any communication sent by CincyMLS using NoteRouter (Tuesday Tip Wrap Up and SentiLock Migration Overview were sent most recently), click the link to update your preferences. Only use the link from communications sent directly to you. The links are unique to each recipient.

MLS OF GREATER CINCINNATI
